Monthly Newsletter from Pawsitive Vet Care

DON'T RELY ON MAGIC

New single vaccine available against Myxomatosis and BOTH strains of Rabbit Haemorrhagic Disease!

NEW RABBIT VACCINE

There's some great news for bunnies. Rather than 2 injections every year needed to protect them, we now have a vaccination against all 3 fatal diseases in one! Less stress for bunnies and less cost for you! Find out more at bit.ly/PawsitiveRabVac

Home visits reduce bunny stress levels!

VACCINATION IS THE KEY

HEAT AWARENESS

The weather is hotting up! Please be aware of the risk of heat stroke in your pets. Make sure outdoor pets have a cool shaded spot to rest and plenty of cool water to drink. Never leave your dog in the car, even for a few minutes and be aware of how hot conservatories can get.

PUPPY SHOW

We had some great entrants in our puppy show. Congratulations to Tigger for being a very worthy winner for cutest puppy! Voting for the other classes is underway on social media channels so please get involved!

TELEPHONE CALLS

This month we are joining forces with a telephone answering service - Verbatim. Their highly trained UK receptionists will answer your calls if Helen is unavailable. The receptionists will be able to book appointments and take repeat prescription requests. For any other queries, they will take a message and Helen will call you back when she is available.

Feedback on this service will be greatly appreciated. We hope it will help us to serve you better.

COVID-19 DOGS

We are raising money for Medical Detection Dogs who are working to train dogs to detect people infected with Coronavirus. They already train dogs to detect cancer and epileptic seizures among other things. Please visit our JustGiving page www.justgiving.com/fundraising/pawsitivepuppy

CORONAVIRUS

Keep up to date with our latest updates at bit.ly/pawsitivecorona

Help us to stay safe and keep you and your pets safe
